

## SGT DOCKING STATION

Docking Station 2 is a gas-integrated device that allows operators to quickly calibrate and test the gas reaction and alarm generation tests of portable SGT gas detectors before entering hazardous sites, and to easily calibrate and bump test if necessary.

Size	52,5 x 43,7 x 21,3 cm
Weight	11 Kg
Operating temperature	5 a + 40°C
warranty	2 years
Battery type	Rechargeable lithium-ion
Battery life	1000 impact tests
Memory	8 GB
Performed tests	Functional and calibration
Storable information	Calibration, single events
Available gases	LEL, CO, H2S y O2
Gas	Compatlble with 58L and 116L cylinders
Charge adaptor	DC12.0V, 3ª/h
