

## FR 6

Anchoring tape made from polyester tape and two steel rings. Their lightness, versatility and different sizes make them the most widely used and versatile anchorages.

The Flame Resistant range offers flame-resistant PPE for work at heights and welding environments. Thanks to the aramid straps and Kevlar thread stitching, resistance up to 371°C is achieved.

Standard	EN 795B, EN ISO 15025, ISO 9150
Length	1,5m
Weight	280 g
Width	45 mm
Breaking strength	22 kN
Useful life (years)	10 usage + 2 storage

### MATERIALS

Tape	Aramid
Sewn	Kevlar
Metal components	high tenacity steel
Finish	deburred and polished
